EDUCATION

UNIVERSITY OF THE EAST - MANILA — Sampaloc, Manila
Bachelor of Science in Computer Science — Expected graudation February 2027
Completing all coursework December 1, 2026
Relevant Coursework: Data Analysis, Software Engineering; Operating Systems; Algorithms; Artificial Intelligence

WORK EXPERIENCE

Big Pond enterprises — Quezon City, Metro Manila
Frontend Developer Intern (Team Lead) — Jun 2025 – July 2025 (200 hours)

- Led frontend development of a Next.js full-stack project as team lead, coordinating with designers and the backend developer on UI and API integration
- Handled debugging, UI improvements, and deployment review process
- Ensured code quality and cross-browser compatibility prior to production releases

FREELANCE EXPERIENCE

Freelance Frotend/Full-Stack developer - Present

- Designed and built responsive wedding invitation websites for clients using Next.js, Tailwind CSS and Supabase, deployed on Vercel
- Built PrismoLens, a website for a photo booth service
- Delivered client sites end to end: UI, Supabase data layer and Vercel deployment

UNIVERSITY PROJECTS

GAIDA (Thesis - on going)
link: https://gaida-system.vercel.app/ — Nov 2026

- Built a multimodal anxiety detection and virtual counseling PWA for university students at University of the East, combining real-time text and voice analysis
- Integrated a fine-tuned GPT-3.5-turbo model with a Taglish/English counseling persona (GAIDA) trained on mental health conversation data
- Developed an ML ensemble classifier (Logistic Regression, Random Forest, Neural Network) for real-time anxiety level detection with 5-tier severity scoring
- Built a live counselor dashboard with real-time alerts, session monitoring, chat takeover, and anxiety progression graphs

NudgePlan — Oct 2026

- Built an AI planning mobile app (Expo/React Native) that turns typed or spoken brain dumps into daily plans
- Developed a FastAPI + Gemini backend with structured JSON output, model fallback, and AI response validation
- Implemented a timezone-aware Reality Check Engine and a Micro-Step Guard that breaks stuck tasks into steps
- Secured AI endpoints with Supabase auth, deployed the API on Render, and shipped Android builds via EAS

CERTIFICATIONS AND BADGES

AWS Educate - Getting Started with Compute (Amazon Web Services, 2026)
IT Specialist - Python (Certiport, expires 2030)

ADDITIONAL

Technical Skills: Advanced in SQL, Javascript, HTML/CSS; Proficient in Python, React, Typescript, Tailwind CSS
